

Enviro-Serv, Inc.'s Updates Shareholders on Acquisition LOI

TAMPA, FL--(Marketwired – May 13, 2014) - [Enviro-Serv, Inc.](#) (OTC: EVSV) CEO Chris Trina releases the following update for shareholders regarding its [previously announced acquisition LOI](#).

“We came a long way in regards to executing a final agreement toward mutual benefit with the target acquisition, which was set for initial transactions late last week; however, I am writing to inform shareholders that the effective date has been pushed with final signatures expected within a week. I apologize for the slight delay; however the seller has requested a few contract terms be amended that I feel will serve both the target as well as Enviro-Serv and its shareholders in a mutually beneficial capacity, so these extra days will serve us well.

In the meantime, we are working diligently to harvest new business in a strategic partnership with the target company wherein they complement our wholly owned subsidiary's ([X-Terminate](#)) effective, non-toxic, environmentally friendly orange oil system with a fumigation option for customers looking for a more traditional solution.

That said, I firmly believe everything happens as it should, and the deal will be papered in a timely manner with a clear path to additional near-term successes.”

Trina concludes, “We have responsibly raised capital toward expanding the company and its brand like never before, and I continue to work diligently on behalf of shareholders to create additional revenue streams toward overall growth.

I am confident this milestone acquisition will be of tremendous benefit in taking the company to the next level.”

Enviro Serv, Inc. (OTC: EVSV) is a Tampa based corporation specializing in providing property maintenance services in geographically concentrated warm climate states. Through an aggressive acquisition strategy, the Company is building a portfolio of highly profitable enterprises that offer year round services such as pest control management, lawn and landscaping care, pool maintenance, air conditioning/refrigeration installation and repairs and a host of additional onsite maintenance offerings.
